Discount vs Rating by Brand

● Average Discount ● Average Rating

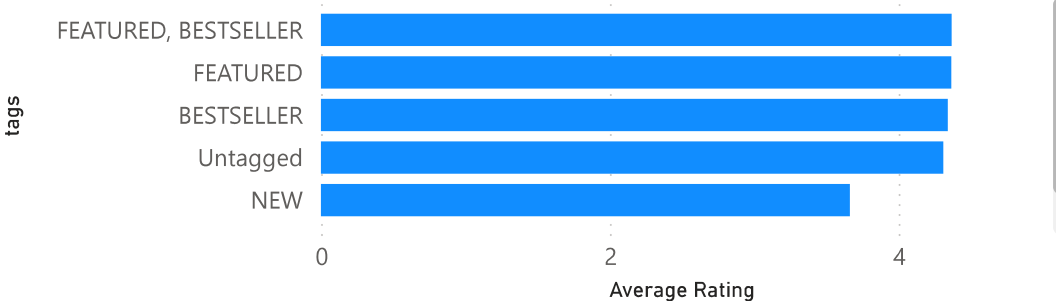

Brands like Colorbar, Faces Canada, and Lotus Herbals discount 20%+ above the platform average, yet their ratings remain below average -suggesting discounting isn't fixing an underlying quality or perception issue.

Review Volume by Merchandising Tag

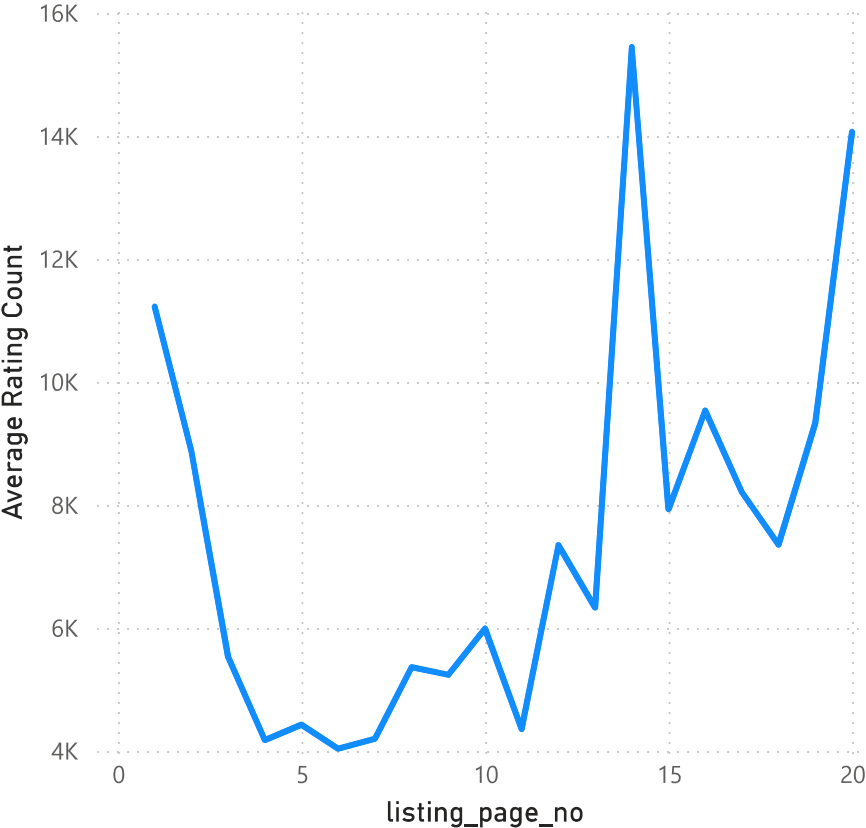

Average Rating by Merchandising Tag

Products tagged FEATURED + NEW average just 2.72/5 — the lowest of any tag group ,while BESTSELLER-tagged products average 4.3+. New product placement may be outpacing actual product quality.

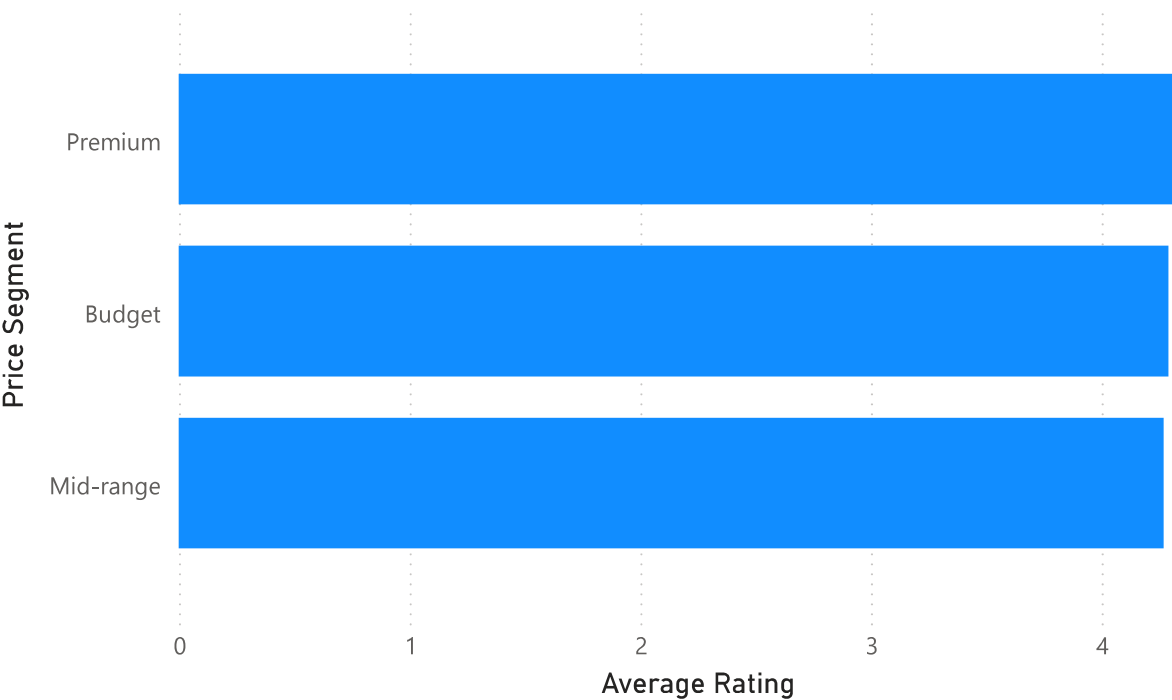

Visibility & Pricing Analysis

Review Volume vs Listing Page

Page 1 listings receive ~11,200 average reviews vs. ~4,000-5,000 on pages 4-9, confirming a strong front-page placement effect. Pages 11+ are shown for reference only, due to small sample sizes per page

Average Rating by Price Segment

Rating is broadly consistent across Budget, Mid-range, and Premium price tiers (roughly 4.27-4.31), suggesting price alone doesn't drive customer satisfaction on this platform.
